At Inukshuk Books

Sr. No./User story no.	User Stories
1	As a child reader, I want to search for books based on the author's name, genre and title, so that I can find the book I want to read.
2	As an account holder, I want to see and browse through books related to what I have searched, read, liked and marked as favourite, so that literature of new authors and genres is accessible to me.
3	As a child reader, I want the word meanings built into the book, so that I can see the meanings/definitions of the words at the point when I click on them popped up in a dialog box.
4	As a reader, I want to read books according to my reading comprehension level, so that I improve slowly as a reader and get introduced to more advanced literature as I improve.
5	As a child reader, I want to be able to create an account, so that I can add friends, see a list of my favourite books all in one place.
6	As an account holder, I want to browse through a list of my favourite books, past read books in a list, so that I can refer to them later.
7	As an account holder, I want to be able to mark books as favourite, so that I can refer to them later.
8	As an account holder, I want to be able to take a comprehension test once a month, so that I know my comprehension level and read books

	accordingly.
9	As a reader, I want to see books based on my comprehension level, so that I have an appropriate and understandable book to read
10	As an account holder, I want to be able to mark the answers to my questions in the comprehension test, so that I can take the test and know my comprehension level.
11	As an account holder, I want the application to listen to me read a text allowed in the comprehension test, so that I know my level of comprehension.
12	As a child reader, I want to be able to rate books after completing them, based on a scale of 1 to 5(1 being the least and 5 being the highest), based on how much I liked the book, so that I get suggestions based on what I like.
13	As an account holder, I want to be matched with other child readers of the same comprehension level and same age, so that we could read together.
14	As an account holder, I want to be able to save my favorite books, so that I can read them in future.
15	As a child reader, I want the application to listen to words while I am reading, so that it knows the words I stumble upon.
16	As a child reader, I want to be able to download books on my device, so that I can read them even if I am not connected to the internet.
17	As an account holder, I want to be able to share a book with other account holders, so that 2 people can read the book at the same time.
18	As a child reader, I want to be able to download the application on my tablet, so that I can access the content and the books on the application.
19	As an account holder, I want to be able to talk to the person I am sharing the book with while reading, so that we could help each other learn and improve reading.

20	As an account holder, I want to be able to see the cover, title, author's name, brief description of the book before reading the entire book, so that I have a basic idea of what the book is about.
21	As a child reader's parent, I want the application to have a strong privacy policy, so that the identity of the child is concealed.
22	As an account holder, I want to be matched with other kids of the same comprehension level, so that we could read and learn together.
23	As an account holder, I want to be matched with other kids with the same favorite books, so that we could read and learn together.
24	As a child reader, I want to be able to read books in landscape mode, so that I could read two pages at a time.
25	As a child reader, I want to be able to read in portrait mode, so that I could read larger text in pages.
26	As a child reader, I want the application to have many pictures, so that I do not lose interest while reading.
27	As a child reader, I want the application to have large texts and off white background, so that my eyes are not strained while reading.
28	As an account reader, I want to see a friends list of all my peers, so that I can connect and read with them whenever I want.
